PROFILE

Motivated fresher skilled in online client search, data collection, and report updating. Proficient in C language, C++, Python with hands-on experience in Arduino and electronics projects. Demonstrated leadership in university clubs, showcasing teamwork and communication. Quick learner, adaptable, and committed to delivering accurate results on time in a professional setting.

WORK EXPERIENCE

I have done practical projects like:

Balancing Robot Project – Arduino, Motor Drivers, Sensors

- Designed a self-balancing robot using Arduino and gyroscope modules.
- Improved balance accuracy by 20% through iterative programming and calibration.

Buzzer Game Project – Reaction-based Circuit Design

- Developed an interactive buzzer game circuit to measure response time.
- Achieved 100% functional accuracy during test sessions.

Arduino Traffic Light System Project – Embedded System Programming

- Programmed an automated traffic light control using Arduino.
- Optimized sequence logic, reducing power consumption by 15%.

Transistor as a Switch Project – Basic Electronics

- Created a transistor-based switching circuit for low-voltage applications.
- Maintained stable performance over 50+ operational cycles.

I have also worked in Clubs:

- Ex-Information Secretary – BAUST Khulna Sports Club
- Joint General Secretary – BAUST Khulna CSE Club (Current)

EDUCATION

Currently doing Bachelor's in Computer Science And Engineering
Bangladesh Army University of Science And Technology Khulna

SKILLS

- Client Search & Lead Generation – Skilled in identifying and researching potential clients online.
- Data Collection & Reporting – Competent in gathering, organizing, and updating data in structured formats.
- Computer & Internet Skills – Proficient in C language, C++, Python, MS Office
- Electronics & Programming Projects – Experienced in Arduino-based builds and circuit prototyping.
- Target Achievement – Consistently meet deadlines and set goals within office timelines.

HOBBIES

Making new projects
Playing video games
Watching movies
